

Amendments to the Claims

1. (Currently amended) A food for ~~increasing the cognitive functional capacity~~ improving the cognitive function of the brain of the food consumer containing a minimum of 100 mg of phosphatidyl serine, and with a minimum of 15 g of carbohydrates.

2. (Original) A food according to claim 1 wherein the phosphatidyl serine is present in an amount of from 200 to 300 mg.

3. (Currently amended) A method comprising consuming the food of claim 1 to ~~prevent and~~ protect against attention deficit disorders and lack of concentration, to ~~prevent and~~ protect against impaired memory and learning disorders, to improve attentiveness and concentration, to improve memory and learning ability and/or to use in learning and training processes.

4. (Original) The food of claim 1 which is a "functional food" product, for example, beverages, bread spreads, chocolate products, candy products, milk, dairy products, diet foods, and cereals.

5. (Currently amended) A food bar for ~~increasing the cognitive functional capacity~~ improving the cognitive function of the brain of the food consumer, with a minimum of 100 mg to about 300 mg of phosphatidyl serine, ~~preferably 200 mg to 300 mg of phosphatidyl serine~~, and with a minimum of 15 g of carbohydrates;
whereby glucose intake into the brain is improved by consuming said combination of phosphatidyl serine and carbohydrates.

6. (Currently amended) The bar of claim 5 with a weight of at least 20 g, ~~preferably to~~ about 35 g.

7. (Currently amended) A food bar for ~~increasing the cognitive functional capacity~~ improving the cognitive function of the brain of the food consumer with a minimum of 40 wt % to about 57 wt % carbohydrates, ~~preferably 57 wt % carbohydrates~~, and with a minimum of 1 wt % to about 1.4 wt % , ~~preferably 1.4 wt %~~ lecithin extract containing phosphatidyl serine.

8. (Currently amended) The bar of claim 5 with a minimum of 10 wt % ~~protein, preferably~~ to about 16 wt % protein.

9. (Original) The bar of claim 5 which is enriched with vitamins and which has a chocolate coating.

10. (Currently amended) The bar of claim 5 with a minimum of 15 wt % ~~fat, preferably~~ to about 27 wt % fat.

11. (Original) The bar of claim 5 with a water content of less than 3%.

12. (Currently amended) The bar of claim 5 to ~~prevent and~~ protect against attention deficit disorders and lack of concentration, to ~~prevent and~~ protect against impaired memory and learning disorders, to improve attentiveness and concentration, to improve memory and learning ability and/or to use in learning and training processes.

13. (Original) The bar of claim 5 which is a "functional food" product.
